

JUNIOR ARCHITECTS: BRIDGES AND SKYSCRAPERS!

JANUARY-JUNE, 2018

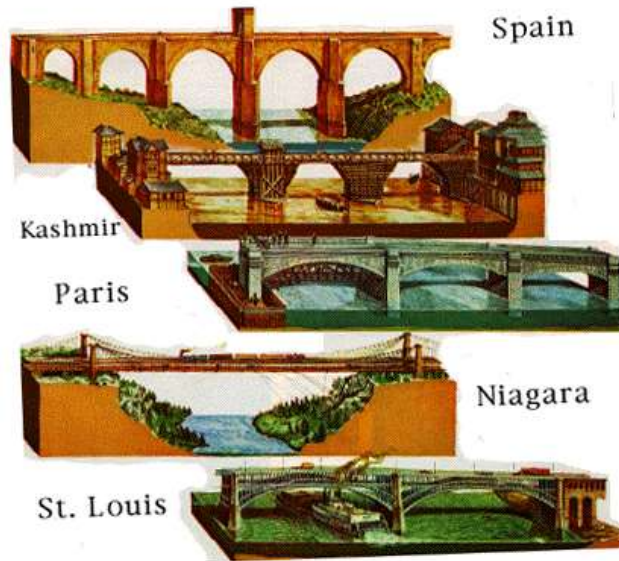

Calling all builders and construction engineers! Are you interested in becoming a junior architect? Well, this is the club for you! On Monday afternoons, during our Winter Session, the Junior Architects will be engaged in learning about famous **architectural styles** and building **BRIDGES AND SKYSCRAPERS!!** From 11:45 a.m. until 2:30 p.m. each Monday, we will be working with blocks, legos, cardboard boxes, wood, and other exciting materials.

Why, you may ask? Because when children work with blocks, they are developing important processes of inquiry such as observing, comparing, classifying, predicting, and interpreting. Scientific thinking is stimulated as a child discovers and invents new forms, compares and classifies different sizes and shapes, tests out ideas of "What will happen if...?" or when she learns to use clues to predict certain outcomes because she has become familiar with the properties of the blocks with which she builds. Unknown to our Junior Architects, they will be learning by doing. They will be investigating fundamental concepts which contribute to future cognitive and aesthetic growth.

In our club, we will work on our bridges and skyscrapers in depth, document our buildings in a variety of ways, and discuss our buildings together. We will study bridges and skyscrapers around our world and find ways to represent them through our building work. We will learn about famous architectural styles and compare them! Woodworking will help us add our own constructed materials to our building projects.

This club is limited to fourteen students. It will meet on the following eighteen Monday afternoons during the winter session for a fee of \$720.00: January 8, 22, 29, February 5, 19, 26; March 5, 12, 19, 26, April 9, 16, 23, 30, May 7, 14, 21, and June 4.

If you wish to enroll, please send in the attached application and tuition fee. So grab your blueprints and ruler and let's get ready to build!!

JUNIOR ARCHITECTS CLUB REGISTRATION FORM: Winter 2018

Complete attached application and return to us with a tuition payment of \$720.00. You will be required to provide full information forms including a medical form prior to the first class.

_____ Registration for Monday afternoon Junior Architects Club, January-June 2018; eighteen sessions (11:45 a.m.-2:30 p.m.)

Name of Child: _____

Female ___ Male ___
